Excellent Notes of Husbandry and Gardening, for every Month in the Year. — 1616. — 1617.  
January cut down Timber (and it should not be eaten with Worms) in the latter part of the Moon for old trees, and of Hay-trees, P: tree, and Pop. first plough those trees, Peaches, Fildens and Vines, and remove trees if the stoll be not too hard, and lop them before full Moon: sow of the like, and pease, and dung land in the last quarter of the Month to rear, fallow land for all these parts. Trench Gardens with dung, and remember to have your old heath, keep your body warm, and wholesome diet be your Physician, moderate exercise and labour your flocks to cause apples to come in the month of January.

## February.

**N**ow to we all sorts of Pease and Beans, and other Pulse, sow Mallow-leaved, radish, turnips, set and plant Turners, Vopus, Good-king and any fruit that grows upon bushes, prunes and all sorts of fruit-trees from mists, canker, and all pernicious Wrenches. Graft in the latter end of March, sow Onions in cold still land in the month of cold, forbear sowing them in the month of April.

March.

## Wood-house, 1688.

Turnets, Cucumbers, Melons, and all kind of Melons, let them be sown according to Strength and necessity, the Sun and other wise being fit (but remember of the learned physician) how what disease cannot be cured in the springtime by syrups, will hardly be cured all the year after.

April. Let the Wives, Womps, and Stays, pale Women, set and loose all kind of Warren hedges, open Hedges, and let Women labour for their living, let Farmers provide them for Wives, and all good Neighbours to their Wives; bleed and purge with advice; and that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May. Let the Wives on all light Lands and bearing grounds, and little Womps and Stays, and all manner of women, seise and herbo, take Lambs from their Wams, and land for shelter and shade, leave lopping of Trees, though Sheep to climb, but cut off the superfluous branches, Rise early, walk the fields, especially by running Streams, Sage and Sweet Marjoram is now an excellent herb, Sage and clary like it, as also the grasses, Wic, and Stropwicks, Wic, are whole plants to be burnt falling.

### June.

Let your Sheep bring home flocks, trees Cope and Sarsaparilla, let Rosemary, Carnations, and Wily-herb, be sown, Lettuce and Radish, sow these as fast as you can, the full, for then they will not run to seed, make Marjoram, Hanc, Lime, Marland Manure, of what you have, and further benefitting your land, cut neither hedges nor trees, in this and the two next months, be more diligent, use them and light Wic, moderate a person, and close thoughts.
